Fargo Jet Center Delivers Two Highly Customized Bombardier Learjet 75 Air Ambulance Aircraft to Government of Romania

Fargo Jet Center (FJC), in collaboration with Bombardier and Spectrum Aeromed, has delivered two highly customized Bombardier Learjet 75 air ambulance aircraft to be used in Romania by the General Aviation Inspectorate of the Ministry of Internal Affairs in support of emergency rescue services. "The visionary craftsmanship and precision constructed into these aircraft truly highlight our team's capabilities and expertise in aircraft modifications," says Randy Jensen, FJC Vice President. "From conceptual design to fully installed solutions, our proven abilities played a key role in equipping these aircraft for their unique mission of improving healthcare accessibility and response times for critical medical emergencies."

FJC transformed the aircraft from standard passenger configurations to full-art air medical interiors with extensive modifications and performance enhancements. The custom-designed, engineered, and FAA-approved modifications include downwash patient lighting, a removable bulkhead, an AFT baggage storage cabinet, a 6,000-liter oxygen rack system, and a forward cargo bay. Additionally, the factory side entry and lower sidewall interiors were modified and encased in full stainless steel.
